CD PREP ADD-ON TO VOX PROXY

For training, sales, medical, education or information professionals who want to deliver content directly to a user's desktop, Vox Proxy with CD Prep gives them the tools to easily create royalty-free, self-starting CDs fully narrated by the family of 3D characters included in the software. The viewer of the CD can select from a menu of presentations, demos, or tutorials included by the author.

The CD Prep Wizard makes it easy to select all the features and requirements necessary for the self-starting CD using drop-down menus and file lists, including characters, languages, and audio and video files. User-prepared author and information files can be displayed by the end-user when the CD starts, as can copyright information or logos.

AT&T NATURAL VOICES™

AT&T Natural Voices TTS engine is considered to be one of the most human-sounding computer-speech systems in the world. The award-winning product consists of a text-to-speech "engine" that turns written words into natural-sounding speech with a library of male and female voices in different languages.

This state-of-the-art speech technology from AT&T Labs features four voices in U.S. English, and additional voices in British English, Indian-accent English, Spanish, French and German.

Vox Proxy characters can now speak with unparalleled quality, clarity and intelligibility. Demos and ordering information available at <http://www.voxproxy.com/NV>.

VOX PROXY PLAYER

Vox Proxy Player is a free and freely distributable add-in program for PowerPoint® 2000 or newer that allows the user to play slide shows containing Vox Proxy scripts with talking animated characters.

For users of the full Vox Proxy program with the editor, you can distribute your scripted presentations to anyone to run in PowerPoint®. All the user has to do is install the Vox Proxy Player one time.

Vox Proxy Player lets you:

- Play slide shows from any presentation containing Vox Proxy scripts
- Play Vox Proxy script macros directly from Windows or from hyperlinks, with or without PowerPoint®
- Display a gallery of characters available on your computer
- See characters demonstrate all their animations

Featuring: 

Be a star presenter:

Communicate more effectively with personable, entertaining characters

Add pizzazz to create impact

Spice up dull or complex information

Engage the toughest audience

Say good-bye to sleepy presentations and bored audiences

Develop and distribute CDs that customers play on their desktop

www.voxproxy.com

VOX PROXY IS GREAT FOR:

- Live presentations
- Training
- Product information or demos
- Medical explanations
- Sales and marketing
- Tutorials
- Kiosk looping presentations
- Customer desktop auto-starting, self-narrating, self-running presentations

Vox Proxy allows you to easily script 3D talking animated characters into PowerPoint® slide shows. Select from scores of animations for each character. Use the built-in speech synthesizer or record your own voice.

- The Script Writer has an amazingly intuitive Wizard so you can develop entire scripts from drop-down menus. The only thing you need to type is what you want the characters to say!

Paul

“Given how easily the program allows a user to add animated characters with scripted dialogue and spice up a presentation or training tutorial, we give Vox Proxy 3 out of 4 bulbs. It’s a pretty bright idea that lives up to its promises.”

www.INT2.com Newsletter

“I wish I had this program many years ago. It would have made me a star presenter and perhaps accelerated my professional progress.”

G.S. – Fallbrook, California

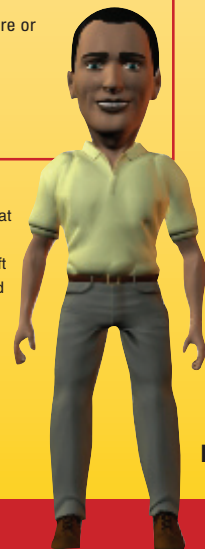

Buy online at www.voxproxy.com

- Develop and edit scripts and slides side-by-side.
- 27 characters are included in the software with more available for additional purchase. Access hundreds more on the Web.
- Supports Windows Media Player, AVI, WAV, MP3, JPG and other media files.
- Comes with 10 text-to-speech engines so you can script in languages like French, German, British English, Spanish, Russian, or Japanese.
- Add AT&T Natural Voices™ TTS in U.S., British, or Indian English, French, Spanish or German and get near-human quality sounding speech!
- Characters respond to voice commands
- Create and distribute auto-starting, self-narrating, self-running CDs with your Vox Proxy presentations.

What Reviewers are Saying...

“In a classroom setting, Vox Proxy will WOW your students. By adding interaction, sound and animated characters, they will remember the lessons much longer than if presented in plain text. Enhancing, captivating, powerful, enriching and enjoyable both for the creator and the one who views the finished work. This one is a lot of fun!”

★★★ Education Clearinghouse Review

“Vox Proxy is a powerful business tool that makes your PowerPoint slides stand out from the usual pack of dry presentations. Vox Proxy’s wonderful script wizard makes scripting exponentially easier.”

★★★★☆ Ron Santos, TechTV

Brooke

Great Support...

“The tutorials are excellent...a source of help in creating my own Vox Proxy scripts.”

J.S.R. – Singapore

“I really appreciate the incredible technical support that you have given me. I have to learn new software almost daily in my job and it makes it so much easier when there is good tech support.”

R.D. – Winnipeg, Canada

“Aside from having a great product, I can say all of you who work for Vox Proxy have been prompt with responses, always courteous, and it has been a pleasure to work with you.”

C.A.W. – Jacksonville, Florida

Easy to Use...

“Vox Proxy is such an easy program to use. You will be creating knock-your-socks-off presentations in very little time.”

T.S. – Newburgh, Indiana

“There’s no learning curve with Vox Proxy. It took me all of 30 minutes using the Wizard before I was writing scripts on my own!”

M.F. – Conyers, Georgia

“I used Vox Proxy for the first time today and it was a hit. Thanks for developing this software. I’m going to have a great time using it. Very simple to learn and script writing is a snap.”

D.G. – Bellevue, Washington

Captivating Presentations...

Simon

“Let me get one thing clearly across—Vox Proxy is addictive. Until you have seen it perform, you’ll never know what you are missing.”

G.B. – Microsoft PowerPoint MVP

“Working with Vox Proxy was real fun. The audience loved it! I especially like the test features.”

A.H. – Solingen, Germany
